2. Background Information

The Automotive industry is fundamental to South Africa’s economy. The industry is a significant contributor to the country’s Gross Domestic Product (GDP), manufacturing output, job creation and generation of export revenues.

Local manufacturing level is being impacted by the increasing number of imported vehicles, economic down-turn and the after-effects of the Covid-19 pandemic.

The vision of the South African Automotive Masterplan - 2035 (“SAAM-2035”) is the achievement of a globally competitive and transformed industry that actively contributes to the sustainable development of South Africa’s productive economy, creating prosperity for industry stakeholders and broader society.

SAAM-2035 has set out several objectives. Key amongst these is to grow production to 1,4 million vehicles a year.

To contribute towards growing local production capacity, the Industrial Development Corporation of South Africa (IDC) is developing the Multi-Model-OEM (MM-OEM) project. The MM-OEM project entails establishing an Independent Automotive Contract Manufacturing Facility in South Africa, where several vehicle brands could be manufactured in low volume batches.

The envisaged plant would cater for the manufacturing of passenger cars, minibuses and light commercial vehicles on shared-common facilities and resources. The plant would accommodate multi-models with an initial combined capacity of 50,000 units per annum catering for the manufacture of both conventional Internal Combustion Engine (ICEVs) and New Energy Vehicles (NEVs).

The project development entails, amongst others, undertaking detailed market studies to consider the feasibility of the project.

It is for this reason that the IDC has a requirement to:

- Scan the global market environment to confirm whether there is sufficient demand for such contract manufacturing solution from existing and emerging car manufacturers, also known as Original Equipment Manufacturers (OEMs) of both Internal Combustion Engine Vehicle, New Energy and Electric Vehicles;
- Identify a narrowed down list of at least five (5) OEMs who could be prospective strategic capacity off-take partners for further engagements;
- Develop a compelling Value Proposition Statement that will resonate with each of these targeted OEMs;
- Develop a Go to Market Strategy for the Multi-Model OEM project with tactical action plan that outlines extent, nature & timing for pro-active engagements. Advise on engagement team composition and resources plan;
- Facilitate engagements and pitching sessions between the project team and relevant decision makers at the targeted OEMs; and
- Coordinate communication channels and follow-up enquiries.

In view of the above, a need arises to appoint a service provider to assist the IDC to carry out the below scope of work.

3. Scope of work/Terms of reference

The appointed bidder will be required to provide the following:

3.1. PHASE 1: GLOBAL MARKET ENVIRONMENT ANALYSIS AND PLANNING:

- With maximum product dimensions of 5,000mm x 1,850mm x 2,000mm.

3.1.2 Identify opportunities driven by the need for contract manufacturing (MM-OEM solution).

3.1.3 Narrow down and rank the potential opportunities that will be pro-actively pursued based on probability for success and motivation thereof.

The service provider shall consider any modification in the proposal as discussed in the review meeting and submit a comprehensive report with the final proposal.

If there is no additional fee envisaged for Disbursements, then the bidder must clearly indicate “No Charge / Free of Charge”. Failure to clearly indicate this, would result in IDC penalising your bid response by taking the cost of the highest bidder and adding 50% thereto and apply this rate for purposes of price comparisons. Bidders are therefore requested to respond clearly and comprehensively on this aspect of their bid response. The appointed service provider shall only be entitled to invoice up to the amount indicated, any further disbursement costs shall not be reimbursed by IDC.

The pricing above is for comparative purposes only. The Contract shall be on a lumpsum basis and the service provider shall not be entitled to an increase in costs. Payment shall be made only on completion of each Phase and no interim payments shall be made.

Annexure 5: Certificate of Independent Bid Determination

SBD 9

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

do hereby make the following statements that I certify to be true and complete in every respect:

6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

Bidders must indicate the extent to which their ownership, management control, employment equity, preferential procurement and enterprise development will be maintained or improved over the contract period in the event that they are successful in this bid process.

- 9.1 The IDC considers the integrity of its appointed service providers to be of critical importance. The IDC reserves the right to disqualify from further consideration, any bidder whose integrity, based on past conduct (during the 5 years immediately preceding the bid submission date), it considers questionable.

- 9.5 The IDC reserves the right to seek such additional information from any bidder, in respect of the disclosure statement referred to in paragraph 9.2 above, as it may, in its sole discretion, determine, whether such information has been requested under this RFP or otherwise, and may require the bidder to make oral presentations for clarification purposes or to present supplementary information, in respect of the disclosure statement if so required by the IDC.
- 9.6 Based on its own assessment of the contents of the bidder's disclosure statement and any publicly available information which is relevant to the contents of such disclosure statement, the IDC will decide whether the bidder's conduct or any allegations relating thereto pose a risk, reputational or otherwise, to the IDC; and if it reaches an adverse conclusion the IDC will in its sole discretion have the right to disqualify a bidder from further participation in the tender process. Disqualification on this ground may be done at any stage in the bid evaluation process prior to contract award.

- 2.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 2.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) on the date of advertisement of the bid as indicated in paragraph 3.1 below.
