

RFP Number: T57/12/24

Description: REQUEST FOR PROPOSAL FOR PROVISION OF INTERNET SERVICES

Question and Answers Version 1

No.	Question	Type	Answer
1	In the IDC RFP document, IDC mention that they will provide a single Ethernet connection from their firewall to the ISP infrastructure. Will it be possible to get confirmation on the following with regards to this connection.	Technical	Medium is fibre, speed is 2 GB
2	Is the requirement for full redundancy of the CPE equipment as well (i.e., dual CPE equipment per site)? The Pricing schedule in the RFP only refer to 2 x Router Rental + switch in Table G: ISP provided & managed routers + switch	Technical	Dual CPE equipment per site
3	Does IDC currently have dual cabinets and power facilities at both locations-Sandton and the DR site	Technical	Yes
4	Is there an existing dual fibre entry into the building at the Sandton location?	Technical	The bidder will do feasibility and advise
5	Based on the outstanding information is there any possibility for an extension till 27 Jan 2025 to allow time for feasibility of the dual/full redundant fibre access requirement.	Technical	The IDC will not be able to extended the closing date.
