2. BACKGROUND INFORMATION

The Clothing, Textiles, Footwear & Leather Growth Programme (CTFLGP) replaced the Clothing & Textiles Competitiveness Programme (CTCP) and was formally launched to industry in 2021. The expressed purpose of the CTFLGP is to:

- Grow employment, improve overall competitiveness and to grow the clothing, textiles, footwear, leather and leather goods manufacturing industries.
- To be a catalyst for Industry to achieve the aims of the Retail – Clothing, Textiles, Footwear Leather (R-CTFL) Masterplan 2030.
- Support job growth, industry output, enhance the sector’s competitiveness, promote inclusivity and transformation, encourage industrial development and innovation while adjusting to technological disruptions.

To ensure that the intended purpose of the CTFLGP is met, the programme requires an effective **monitoring and evaluation (M&E) system** to enable regular, short-interval assessments of the programmes impact among the industry beneficiaries.

The M&E system will enable the IDC to have a short-interval view of the performance of the programme beneficiaries according to defined and standardised set of key performance indicators. Crucially this will enable **the dtic**, IDC, clients and other stakeholders (stakeholders) to track programme and beneficiary performance.

Key objectives of the CTFLGP M&E systems are:

- **Improved transparency:** the solution should enable stakeholders to review how programme beneficiaries are performing in relation firm and consolidated sub-groups or global KPIs through a short-interval M&E cycle. A quarterly review period is suggested.
- **Improved accountability:** programme beneficiaries will be responsible for updating information on the system and provide context to figures when requested by IDC.
- **Better risk mitigation:** regular updates to firm Key Performance Indicators (KPIs) will give IDC earlier signals when recipients of programme funds are in distress.
- **Enhanced sector analytics:** IDC will be able to build a sample of sector data providing sector, sub-sector and regional data.

2.1. Project Oversight:

- Following the appointment of a service provider, a project steering committee will be established to monitor project execution over the contracted period. The work of the steering committee must be guided by an approved project plan with milestones, timelines and associated costs. Further, roles and responsibilities of the appointed service provider and client must be clearly delineated.
- Support and maintenance will be governed by a Service Level Agreement as agreed to between the IDC and the Service Provider.

Note on pricing:

Disbursements (incidental expenses other than professional fees e.g., travel and accommodation, printing costs, etc.) must be clearly defined, outlining all assumptions. It is of utmost importance to submit clear and comprehensive cost proposals to allow the IDC to fairly compare bid price / cost proposals. If there is no additional fee envisaged for Disbursements, then the bidder must clearly indicate "No Charge / Free of Charge". Failure to clearly indicate this, would result in IDC penalising your bid response by taking the cost of the highest bidder and adding 50% thereto and apply this rate for purposes of price comparisons. Bidders are therefore requested to respond clearly and comprehensively on this aspect of their bid response.
